NINE Informative & thought-provoking presentations

Wednesday 4th October

HOW CAN WE ACHIEVE MEANINGFUL INTEGRATION?

Fraser Rickatson

Policy Officer, Care England

The Opening address will look to contextualise the current landscape of the sector and social care reform. Fraser will then look to what the future of our care sector could be, with the opportunities that are presented with Integrated Care Systems and the challenges facing us in the future.

OUR LIVES WITH DEMENTIA

Chris & Jayne Roberts

NACC Ambassadors

Jane and Chris will discuss their work with the Welsh Government and the Wales Dementia Action Plan; Jayne's work with the charity Dementia Carers Count; Chris's work with Alzheimer Europe as Chair of the European Working Group of People with Dementia; and of course, where we are now in Chris's progression.

MAXIMISING THE WIDER BENEFITS OF FOOD FOR CUSTOMERS, CARERS AND STAFF IN THE CARE SECTOR

Professor Jane Ogden

*Professor in Health Psychology,
University of Surrey*

Food is not just about nutrition but plays many other roles in our daily lives. This talk will explore the many roles of food including emotional regulation, social interaction and communication and highlight the ways in which food can be used to build relationships, have fun, create a sense of security and improve both physical and mental wellbeing.

CARE CATERING: TIME FOR NEW INGREDIENTS

Baroness Barker

Member of House of Lords, NACC Patron

Baroness Barker, the NACC's patron and long-term supporter and member of the House of Lords, will update delegates on her ongoing lobbying to Government on behalf of the NACC and the broader care catering sector. She will share her continuing plans to influence the care sector as an experienced and important voice who is able to engage and influence the necessary bodies and Government.

THE SERVICE... I COULD NOT DO WITHOUT IT: BUILDING THE EVIDENCE ON THE IMPORTANCE OF MEALS ON WHEELS IN THE UK

Dr Angeliki Papadaki

*Senior Lecturer in Nutrition,
University of Bristol*

Meals on Wheels deliver meals to older adults, and those in need of care and support, who might otherwise not be able to acquire and prepare their own meals. The benefits of the service are widely recognised and extend beyond nutrition. However, the service is hugely under-researched in the UK, and more evidence is required to support decisions on its continuation and enhancement at local, regional, and national level. This presentation will use findings from University of Bristol studies on Meals on Wheels to dissect implication for social care practice and policy.

Thursday 5th October

FOOD ALLERGIES, NATASHA'S LAW & BEYOND

Nadmin Ednan-Laperouse & Tanya Ednan-Laperouse
Co-Founders, The Natasha Allergy Research Foundation

The catastrophic rise of food allergies in our society in the last 20 years, what lies ahead and what can be done about it?

OPPORTUNITIES AND CHALLENGES: WHERE TO NOW FOR LOCAL GOVERNMENT

Mo Baines
Chief Executive Officer, APSE

An overview of the impact of national funding on local government budgets and the opportunities and challenges for the delivery of care catering.

BRAND NEW BDA MENU PLANNING GUIDANCE FOR CARE HOME CATERERS

Helen Ream, *Healthcare & Foodservice Dietitian, Compass Group*

Alison Smith
Registered Dietitian

The Health and Social Care Act requires all care homes to meet residents nutritional needs, however there is currently no national guidance available to support caterers about how to do this. The British Dietetic Association is working with NACC to produce the first ever freely available, national food-based guidance designed to support

care home chefs to understand how to meet older adult residents nutrition needs using food. Helen and Alison will discuss the planned guidance together with planned timelines for launch.

ARE YOU A CHARISMATIC LION OR AN EASYGOING BEAR? DISCOVER YOUR PERSONAL PROFILE
